Hearing involves multiple appeal files

APPENDIX - PUBLIC BROADCAST OF APPEALS

To be completed by any person filing Form 5: Notice of Hearing and any criminal respondent filing their factum/statement

On 3 January 2023 the British Columbia Court of Appeal will publicly broadcast by video all of its appeal hearings subject to the exceptions noted below or where otherwise directed by the Court. For more information about public broadcast of appeals see section 2.2 of the [Court's Record and Courtroom Access Policy](#).

As the party filing this form, I confirm that I have advised all parties that this appeal will be publicly broadcast subject to the following exceptions:

1. Appeals involving a matter prosecuted under the *Youth Criminal Justice Act*;
2. Appeals where publication bans or sealing orders are in place that are incompatible with a public broadcast; or,
3. Appeals where privacy, confidentiality, or other concerns are incompatible with a public broadcast.

Does any party object to the public broadcast of this appeal?* Yes No

IF NO PARTY OBJECTS, identify any measures necessary to mitigate privacy or confidentiality concerns, if they exist (e.g. referring to an individual by their initials, suspending the broadcast if confidential information is discussed or other precautionary measures?)

IF ANY PARTY OBJECTS, identify the applicable exception to public broadcast listed above and explain the basis of the objection:

If any person appearing at the appeal has concerns about the broadcast relating to their personal health, safety, or a disability, they should contact the Associate Registrar, Maria Littlejohn, at 604-660-2865 to discuss these issues confidentially.
